

Dyna

Pole Connector

DYNA Pole connector is a terminal block where the wires are clamped down to the metal part by a screw.

It is a connector which allows more than one circuit to connect to another circuit. It contains copper strips that are designed to connect cable in traffic light pole.

TECHNICAL SPECIFICATION

Pitch Rated	5.0mm, 5.08mm
	7.62mm
Voltage/ Current	300V/ 15A
Housing	PA66, UL94V-0
Conductor Material	Copper Alloy
Plating of Conductor Surface	Ni Plated/ Sn Plated
Wire Range	22-14 AWG
Dielectric Voltage withstand	1.6 KV
Operating Temperature	-40°C to 105°C

KEY FEATURES

- Former connector is not durable as it using 15 Amp PVC connector that last 1 to 2 years and will gradually lose strength and quality.
- Dyna Pole Connector is made from durable materials for long lasting life.
- Easy for maintenance team to do megger test.
- Easy to installation as cable in right order.
- Maintenance-friendly.
- Lightweight.
